

Inventory Management System in C

Sample Output

Program Startup

```text id="w2j9pd"```

INVENTORY MANAGEMENT SYSTEM

=====

1. Add Product
2. Search Product
3. Update Product
4. Delete Product
5. Display Inventory
6. Stock Report
7. Exit

Enter your choice:

---

## 1. Add Product

```text id="53izgr"```

Enter your choice: 1

=== Add Product ===

Product ID : 1001
Product Name : Arduino Uno
Category : Electronics
Quantity : 25
Unit Price (₹) : 650

✓ Product added successfully!

2. Add Another Product

```text id="n8qjwi" Enter your choice: 1

=== Add Product ===

Product ID : 1002 Product Name : Breadboard Category : Components Quantity : 40 Unit Price (₹) : 120

✓ Product added successfully!

---

## 3. Search Product

```text id="n20vzx"

Enter your choice: 2

=== Search Product ===

Enter Product ID: 1001

Product Found!

| | |
|-------------|---------------|
| Product ID | : 1001 |
| Name | : Arduino Uno |
| Category | : Electronics |
| Quantity | : 25 |
| Unit Price | : ₹650 |
| Stock Value | : ₹16250 |

4. Update Product

```text id="wqjgjz" Enter your choice: 3

=== Update Product ===

Enter Product ID: 1001

New Quantity : 30 New Unit Price(₹) : 700

✓ Product updated successfully!

---

## ## 5. Display Inventory

```text id="6x7ufx"

Enter your choice: 5

=== Inventory Records ===

| ID | Product Name | Category | Qty | Price(₹) |
|------|--------------|-------------|-----|----------|
| 1001 | Arduino Uno | Electronics | 30 | 700 |
| 1002 | Breadboard | Components | 40 | 120 |

Total Products: 2

6. Stock Report

```text id="s7x84s" Enter your choice: 6

=== Stock Report ===

### Product Name Quantity Unit Price Stock Value

Arduino Uno 30 ₹700 ₹21000 Breadboard 40 ₹120 ₹4800

Total Inventory Value : ₹25800

---

## ## 7. Delete Product

```text id="1k20ko"

Enter your choice: 4

=== Delete Product ===

Enter Product ID: 1002

✓ Product deleted successfully!

8. Display Inventory After Deletion

```text id="6r1jx5" Enter your choice: 5

=== Inventory Records ===

| ID | Product Name | Category | Qty | Price(₹) |
|----|--------------|----------|-----|----------|
|----|--------------|----------|-----|----------|

|      |             |             |    |     |
|------|-------------|-------------|----|-----|
| 1001 | Arduino Uno | Electronics | 30 | 700 |
|------|-------------|-------------|----|-----|

Total Products: 1

---

## Error Handling

### Product Not Found

```text id="q0xg0o"

Enter your choice: 2

=== Search Product ===

Enter Product ID: 9999

Product not found!

Invalid Quantity

```text id="dckd7u" Enter your choice: 1

=== Add Product ===

Quantity : -5

Error: Quantity cannot be negative!

---

## Exit

```text id="on4hif"

Enter your choice: 7

Thank you for using Inventory Management System.

Goodbye!

Features Demonstrated

- Add New Products
- Search Products by ID
- Update Product Information
- Delete Products
- Display Inventory Records
- Generate Stock Reports
- Inventory Value Calculation
- Error Handling
- Menu-Driven Interface
